

It's a Nano World!

The Arts and Science Center for Southeast Arkansas would like to invite all Kids' Quest members to an event of microscopic proportions. Nanotechnology is everywhere around you; join us for an afternoon of fun and discovery. It really is a small world after all!

Highlights

- NanoSolutions: Working with concentrations.
- Cutting it Down to Nano: Understanding the smallness of the nanoscale.
- Nanotechnology Mitten Challenge: An introduction to nanotechnology.
- Ball Sorting: The abilities of technological design.
- Rice Sorting: Properties of objects and materials macro/microscopically.

The Arts and Science Center for Southeast Arkansas

*This event is open to the public. There is no fee to join; membership registration cards can be obtained at the reception desk or by contacting the Center's Education Department. Children must be accompanied by an adult at all times.

For more information please contact Elise Askew or Michael Stowe at
870.536.3375

Time: 1-3pm

Date: Saturday, April 5, 2008
